

Jump Trip Sheet

This is for your kind information regarding “Jump tripsheet” Issue which leaseholders are facing after generating tripsheet in ILMS System.

DMG has designed solution to reduce frequency of jump trip sheets but it won't be fully eliminated because system won't identify printer status to verify trip sheet printed or not. To understand various reasons for jump trip sheet, please go through below information.

After generating trip sheet in ILMS System, Lessee will not be able to take print out due to below reasons and all 8 problems are taken into consideration and except problem no 6.

1. Browser Setting issue due to that user will not get print command
2. Printer ActiveX control is not installed and facing error in report page.
3. LAN Connection failed or Internet connection failed
4. Unexceptional error occurred
5. Power failure before printing
6. Printer related issues like paper jam, printer not accessible, empty cartridge
7. Browser not responding or closed
8. Virus or malware or Anti-virus disturbance

System shall provide automatic re-print option to leaseholder based on certain technical rules for those trip sheets which are jumped due to above 8 reasons except problem no. 6.

Leaseholders or buyer have to carefully understand process and discuss with helpdesk if any confusion. We would assure that based on designed solution, jump trip sheet issues will reduce 99%.

Some measurements have to be implemented by leaseholder in their premises to avoid unexpected problems

1. Your computer, Printer and Internet switch or router must be equipped with UPS connection to avoid power failure or fluctuation problem.
2. Your Internet explorer should have necessary settings for printing. Please download “Browser Settings for Print Control and Active X Controls” from download section from <http://khanija.kar.ncode.in> and verify setting as mentioned. For Internet explorer 11, please do necessary changes as below
 - a. Go to Tools
 - b. Click on Compatibility View Settings
 - c. Type khanija.kar.ncode.in URL
 - d. Click to Add

Process for trip sheet generation:

1. Filling trip information on trip sheet page and Clicked on “Issue and Print Information” Button

To reduce frequency of jump trip sheet issue, you have understand few rule carefully as under

1. Don't click on  print button if trip sheet format for print out is not visible or some error printed
2. If you clicked on  print button, then system understood that trip sheet format is visible on screen which means trip sheet is not jumped and you have taken print of trip sheet.
3. If trip sheet format is visible and you clicked on print button then make sure that you must click "Ok" button. If you clicked "Cancel" button or closed popup then system will not allow to take print again.

4. Once you clicked on "Ok" or "Cancel" button, System will not provide you print option again and disable print  button from screen as under

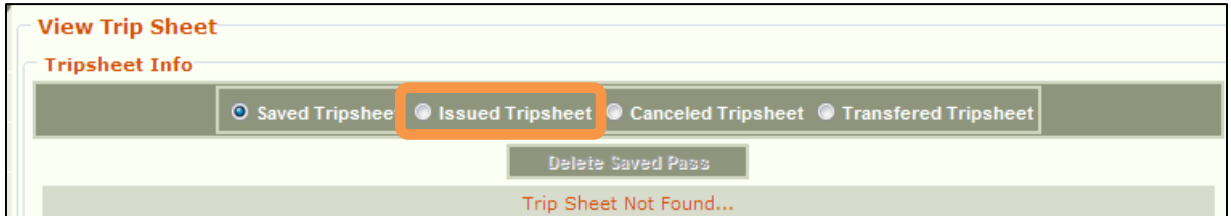

5. "To avoid LAN Connection issue after clicked on "Ok" button to print trip sheet, please install printer in local computer from where you are generating Trip sheet. Avoid printer connection from LAN or network"

Note: If you clicked on  print button, system won't allow you to re-print trip sheet.

How to Re-Print Trip Sheet

1. Go to "View Trip Sheet" link and select "Issue Trip Sheet" button.

View Trip Sheet

Print Sheet (L_11110000071)

4. Instead of trip sheet format, if you will see alert message like **“Trip Sheet print occurrences are over. Please contact your Deputy Director”** then it is self-understood that system has given you change to take print and you clicked on print button to print, so system will not give you re-print option again and leaseholder has to submit SSPP to Deputy Director to cancel jumped trip sheet within 3 days otherwise it won't be entertain.
5. System will display you trip sheet format on screen and you can take print out of trip sheet.
